

Procurement – Who Does it Well?

*Contract review Committees
Implemented in Alberta*

F-18 Jet Fighter Replacement

Edmonton LRT Metro Line - Delayed

Snatched from the headlines, each of the above are examples of billions of dollars Canadian governments (federal, provincial, municipal and agencies) collectively procure each year. Efficient and effective procurement is critical to the proper functioning of government operations and central to a modern economy.

Presenters from PwC, Service Alberta and the City of Edmonton will consider the public sector procurement challenges from many perspectives. A special moderated panel will consider the challenges of implementing a contract review committee in an organization. This is a joint presentation FMI and PwC - a global leader in supply chain and procurement.
